

***TECHNOLOGY DRIVEN. WARFIGHTER FOCUSED.***

*Facility Usage and Technology Demonstration Participation  
Package For:*

**Enter Participant Organization here**  
**Enter System / Activity Name here**

Version X.X

<b>Name of Activity/System</b>	<i>Enter name</i>		
<b>High Level Objective</b>	<i>Enter objective</i>		
<b>Anticipated Timeframe</b>	<i>Enter timeframe (dates / schedule of the event)</i>		
<b>Primary Benefits</b>	<i>List high-level benefits to DoD</i>		
<b>Participant</b>	<i>Enter Government / Corporate Office Name</i>		
<b>Sponsor</b>	<i>Enter Government sponsor, if applicable (name, organization, role, telephone &amp; email)</i>		
<b>Points of Contact</b>	<i>Management POC: (name, organization, role, telephone &amp; email)</i> <i>Technical POC: (name, organization, role, telephone &amp; email)</i>		
<b>PD C4ISR &amp; Net Mod Point of Contact</b>		<b>To be filled in by PD C4ISR &amp; Net Mod</b>	

## High Level Diagram

Visually describe the system and its main components

(e.g., DoDAF OV-1, photograph)

## Technical Description

- Identify any high-level technical objectives
- Describe what the system does and its primary data interfaces
- Describe expected results
- Identify deliverables (e.g. software, reports)

## Operational Description

- Describe the anticipated operational use of the system
- Include relationship/relevance to Current/Future Force systems and/or requirements

## Supporting Information

- Number of live system quantities
- M&S (as appropriate)
- Timeframe available for integration, pre-testing, execution, wrap-up
- Technical POC information

***Please provide summary information for your system/activity in this format***

List specific resources your organization will supply and resources requested from PD C4ISR & Network Modernization, including:

Resources Required	Participant Provides or Coordinates with External Sources	Requested From PD C4ISR & Net Mod
<b>Equipment - Vehicles, radios, systems</b> Note: <ul style="list-style-type: none"><li>- PD C4ISR &amp; Net Mod has a limited number of vehicles of various configurations</li><li>- Participant organizations are expected to provide drivers</li></ul>		
<b>Maintenance</b> - Vehicular support		
<b>Facilities</b> - Workspace, storage, trailer or vehicle parking, etc.		
<b>Soldiers</b>		
<b>Personnel</b> - Engineering and/or logistical support		
<b>Terrain &amp; Airspace</b> - Training areas / airspace required to execute activity		
<b>Virtual</b> - Models, Simulations, Virtual Environments, High Performance Computing (HPC) assets		
<b>Network Connectivity</b> - LAN/WAN, DREN, SATCOM, Internet, etc...		
<b>Data Collection / Analysis Support</b>		
<b>Other Items</b>
